This document constitutes the Agreement which is made between the University of Essex and every employee of the University of Essex who works at the UK Data Archive (the Archive), and other individuals who are given access to the Archive or its systems, regarding non-disclosure of any classified information held by the Archive.

Definition of Terms

These definitions refer to the use of the forms in this document.

“Personal Data” shall mean any information which relates to an identified or identifiable natural person.

“Personal Information” shall mean any information that relates to and identifies an individual (including a body corporate) taking into account other information derived from published sources.

“Archive Administrative Records” shall mean any Personal Data relating to registered users of the Archive’s services or to staff of the Archive.

“Technical Development” shall mean any technical architecture, systems, program code, documentation, etc., which relates to the development of Archive services.

“Archive Information Assets” shall mean all Data, Personal Data, Personal Information and information relating to the business and or activities of an individual whether written, oral, visual or stored by any computer-based or electronic method, at any time supplied to the Receiving Party or to any of its advisors. For the purposes of this agreement Technical Development shall also be understood to be Archive Information Assets.

“ONS Approved Researcher” shall mean a researcher to whom the UK Statistics Authority, under the Statistics and Registration Services Act 2007, has granted access to Personal Information held by it for the purposes of statistical research.

“ESRC Accredited Researcher” shall mean a researcher to whom the UK Data Service and the data owner(s) have granted access for the purposes of statistical research to Personal Information not held by the UK Statistics Authority and which have been licensed to the UK Data Archive/University of Essex for dissemination.

Authorised individual shall mean someone approved by Archive management to have access to Archive systems. This will normally be a member of staff at a partner organisation who is involved in joint working with the Archive, such as employees working within the UK Data Service. An authorised individual must obtain University of Essex campus credentials and register with the UK Data Service before being granted access to Archive systems.

Roles and Responsibilities

Resources and Management Services (RMS) will ensure that every new member of Archive staff reads this document and signs the appended Agreement Form as part of the induction process.

Other individuals will be required to complete the form before being given access to Archive systems. RMS

will check that the individual is registered with the UK Data Service at the time of receipt of the signed agreement.

RMS will keep all signed forms.

Every member of Archive staff subject to annual review will be required to record that they have accepted the current version of the Agreement at their annual appraisal. This will be recorded during the review process. For any other individuals who continue to have access to the Archive or its systems there will be an annual reminder of their obligations.

The agreement may be updated at any time and new versions are circulated to individuals who have signed the document, and still have access to Archive systems, at least one week before coming into force.

UK Data Service Functional Directors are responsible for ensuring that any staff external to the UK Data Archive sign this agreement and are reminded of their obligations annually. RMS will issue an email to Functional Directors when the annual reminders are due.

It should be noted that the Archive employs University of Essex Frontrunners from time-to-time and that they have to sign an additional Confidentiality Agreement (Frontrunners Form C), available at: https://www.essex.ac.uk/frontrunners/restricted/useful_forms_staff.aspx#Induction. The signed copies of this document are filed by RMS alongside the standard UK Data Archive Non-Disclosure Agreement.
